PHILADELPHIA SECTION PGA
BIRDIES FOR GOLF BUDDIES

Help your PGA Professional and the Philadelphia Section, PGA raise funds for their official charity, Variety-The Children's Charity. Variety serves thousands of special needs children and their families each and every year. From their nationally recognized Golf Buddy Program and Developmental Camp to their much needed after school programs and Autism resource center Variety serves children of all mental and physical disabilities. This program is a great way to support your PGA Professional and the Children of Variety through the game that we all love. So how does this all work?

Friends and members make pledges to donate a certain dollar amount for each birdie and/or eagle that their PGA Professional or Apprentice will make during the year. All Professionals participating will track their birdies and eagles during all official Section and Assistants' events throughout the year. You can follow along during the year with our birdie tracker on the Section website at www.phillypga.com. At the end of the season you can make out a check directly to Variety-The Children's Charity for a much needed donation to a very worthy charity through the support of your PGA Professional.
